

## Doc Cooley

January 10, 2025

I was teaching a class at Benedictine in 2007 when I found tiny kitten hanging on a trellis. He was scared and no mom in site. I took him home and then to the vet. They told me he was around 3 weeks old so I would need to bottle feed him. I named him Doc. We bonded immediately and I became his person. He was such a funny cat, loved to play and snuggle, had a big voice and would let me know when it was meal time. He had a big purr and a bigger heart. I will miss him so very much but will carry him in my heart always.

I hope you are with your other Mom, Lisa, and your furry siblings Oliver, Einstein, Cool, Chief, & Tiger.

I love & miss you my sweet buddy- Jonna J Cooley
